The vehicle specification section assists you with better understanding your vehicle's standard and optional equipment, via VIN decode processing. These processes are generally reliable, and providers work to continually improve their decoding. However, different VIN decode processors may show different specifications. If you have questions, please check with your vehicle's manufacturer. Dealers/sellers also report installed option information, which is provided when available.

### Junk/Salvage/Total Loss

Source NMVTIS

This section discloses events related to events like junk, salvage and insurance total loss that have been reported to VINData History. Included are state DMV titles that show junk, salvage or similar brands, insurance total loss events and salvage auctions or junk yard disclosures. Events related to an auto dismantler, auto recycler or crush facility indicate that the vehicle has sustained major damage. A vehicle that has been received by a salvage auction or junk yard usually indicates major prior damage, however these entities also remarket undamaged vehicles. We recommend an inspection by a qualified mechanic.

Good news - no junk, salvage or insurance total loss events have been reported to VINData History.

### Title Information

Source NMVTIS

This section identifies this vehicle's current and historic DMV titles reported as issued by date, indicating the state and reported mileage. Title brands that have been reported to VINData History are shown in the "Title Brands Reported" section below. Each title record represents a new title holder, duplicate title, lien release or other title event. Odometer readings are generally recorded when a new title is issued. This information reflects the title information on file with NMVTIS. For more information, please contact the state of title. We recommend an inspection by a qualified mechanic.

### NMVTIS Consumer Access Product Disclaimer

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and brand history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because some states are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is NOT a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are **strongly encouraged to also obtain an independent vehicle inspection** to ensure the vehicle does not have hidden damage. The Approved NMVTIS Data Providers (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

NMVTIS data INCLUDES (as available by those entities required to report to the System):

- Information from participating state motor vehicle titling agencies.
- Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and tractors. NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.
- Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.
- Most recent odometer reading in the state's title record.
- Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.
- Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit [www.vehiclehistory.gov](http://www.vehiclehistory.gov) for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.

### VINData Products Consumer Access Product Disclaimer

The compilation of VINData Products services, VINData Vehicle History and Title Reports and other history and related products, use data from multiple third party data suppliers and other various data sources which may supplement data supplied by NMVTIS or its sources. Sections of this Vehicle History Report are based on NMVTIS data and NMVTIS data sources as indicated. Thus, the above Consumer Access Product Disclaimer applies solely to NMVTIS data and NMVTIS data sources. NMVTIS provides data directly from its databases to VINData Products consumers through the AAMVA tested and approved VINData Products interface on a "read-only" basis. VINData Products does not supply or enter any data into the NMVTIS databases and is not responsible for supplying any data contained in any NMVTIS Vehicle History Report. Therefore, VINData Products cannot warrant or guarantee the accuracy of any information contained in any NMVTIS Vehicle History Report data.

In 2015, J.D. Power brought together its industry-leading new car retail intelligence capabilities with the industry's most trusted source for used-vehicle valuations through its acquisition of NADA's Used Car Guide division. In 2017, the company further expanded its valuation offerings through the acquisition of National Appraisal Guides and NADAguides.com, adding motorcycles, RVs, classic cars, boats, and manufactured homes to create the most comprehensive and trusted source for vehicle pricing and information in the industry.

J.D. Power is a leader in providing vehicle data and information to both the consumer and commercial markets, and counts among its customers the nation's leading banks, credit unions, fleet and lease organizations, auto dealers, insurance companies, and government agencies. The company delivers its accurate and reliable values and insights through a variety of products offered through online and mobile applications, and printed guidebooks.

VINData History Reports for auto dealers and other commercial users provide Manheim Market Report (MMR) values. MMR is the premier indicator of wholesale prices. MMR helps users research vehicle values quickly and easily. Valuations are based on millions of wholesale transactions from the previous thirteen months, and are refreshed each night. For additional details, please see "MMR Under the Hood" on Manheim.com.

Dealers and other commercial uses: please contact us to get MMR values added to your reports.

The National Highway Traffic Safety Administration (NHTSA) is responsible for keeping people safe on America's roadways. Through enforcing vehicle performance standards and partnerships with state and local governments, NHTSA reduces deaths, injuries and economic losses from motor vehicle crashes. NHTSA provides vehicle specifications and vehicle recalls like Takata airbag recalls.

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that provides consumers with valuable information about a vehicle's condition and history. Prior to purchasing a vehicle, NMVTIS allows consumers, dealers, wholesale auctions, vehicle lenders and insurers to find information on the vehicle's title, most recent odometer reading, brand history, and, in some cases, historical theft data. See NMVTIS Consumer Access Product Disclaimer

NVS has the sole purpose of assisting law enforcement, vehicle finance, insurance and rental car companies and the public in protecting vehicle assets. NVS's service assistance is in response to current volatile economic market conditions in the United States that breed an increase in vehicle theft, vehicle fraud and theft by deception.
